

AI-Driven Patient Engagement Tool

Automate Tedious Patient Intake & Scheduling

The Argus AI Ecosystem™ is now offering a patient engagement tool using Open Access Endoscopy (OAC) to bring further time savings to your office. Argus® concierge allows for a highly customizable and automated system for intake, prep support and much more. Patients can use the system via phone or browser for immediate access, removing burden from staff.

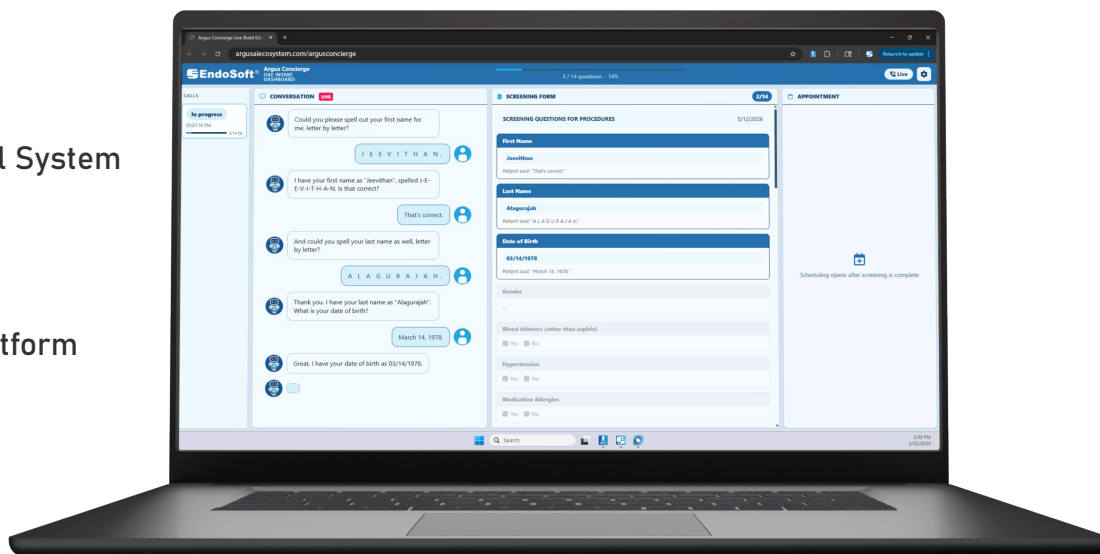

Cross Population Integration with All Major HIS/EHRs

Phone Call System

Online Platform
